4. [] cost per house and U. S. dollar costs are based on information provided by a U. S. trained architect of accepted competence

Cost of land
Building cost
Imported materials

These figures are derived from the actual cost of a four bedroom house recently completed [] The current index rate for [] to the dollar. This would make the theoretical cost for the largest houses and lots approximately [] per unit. Since it is not practicable, however, to engage in large housing projects [] as undertaken in [] other areas, the [] funds probably will remain largely uncommitted unless individual housing is engaged in. Thus the dollar expenditure of [] per unit is a more realistic cost figure.
